Strange People

Galatians 3:26-29

Responses & Reactions

- What disturbed you, challenged you, or intrigued you in this week's message?

Digging Deeper

- Early Christianity spread in part because it struck a delicate balance. Be too strange and no one will want to join you. But don't be distinctive enough and you lose your reason for existing. How do you think the American church is doing at navigating this tension? Why?
- How well do you think the early church's distinctives translate into the modern world? Do these distinctives still apply? Would they still make us stand out?

Bringing it Home

- Are there other markers, aside from the ones mentioned in the teaching, that you think should also set Christians apart in 2021?
- Where or how do you think we as a Trinity family could work together to practice a good kind of strangeness?
